Instructions

1. Although these questions seem obvious yet candidate never prepare for these answers. Never go for the interview before checking the answer of these questions as it will give you the edge in the interview.
2. The authentic source to look for answer is company's official website, Wikipedia page or LinkedIn account.
3. These are most basic questions every interviewer expect that their candidate knows the answer. Even if interviewer is not going to ask these questions directly, still you can use it indirectly as a reference.
4. Instead of reading and thinking, take a print out and do your research.
5. For the maximum growth, review your job search preparation after every interview. Download the **Interview Review Progress File** and review your progress after every interview. For more career and job search related resources [Click here](#)
6. The Company Research Template is an integral part of book [The Essential Job Search Manual](#).
